The ultra-quiet belt drive will force-feed 20+ balls-per-second, allowing your marker to throw plenty of paint at your opponent. The Freeway™ Anti-Jam keeps the paintball loader from jamming and breaking paintballs, so you'll still be shooting while others are busy scraping paint. The new, matte black polycarbonate shell can withstand any hit and can easily fit 180 paintballs.

The on-board computer directs the sound-activated feeding and allows you to program the Motor Speed, Microphone Sensitivity and Feed Stack monitoring. But of course, with a name like Halo, you knew you'd be getting the ultimate in paintball loader technology. Put this loader on your marker and Empire will make a believer out of you Too.

## EMPIRE 200 ROUND LOADER

Empire has taken the standard 200-round hopper and through clever engineering creates a gravity hopper that decreases ball jams while increasing the rate of fire.

The Splitter is a suspended, inverted cone that reduces the downward pressure on the balls allowing them to feed cleanly down the funnel.

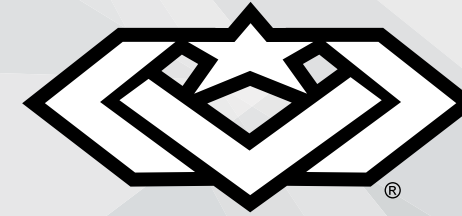

No moving parts or batteries are needed for this hopper which can even outperform some electronic agitator loaders.

Not having a motor ensures zero noise or sound from the hopper, keeping you super stealthy on the field.

The Splitter is the perfect hopper to pair with your mechanical and e-grip marker making you a formidable opponent.
